

Understanding Trauma

Forensic and Military Cultural Aspects of
PTSD and Effective Solutions

Featuring

Ryan Sanft, LCSW
Nancy Farrell, PsyD

The direct impact of PTSD on military and civilian populations is becoming increasingly alarming. This seminar will help you navigate problematic client behaviors within forensic and military populations and provide effective evidence-based treatments for adult clients with PTSD and their families. The seminar is geared to forensic mental health clinicians and attorneys and includes a firsthand look at how Post Trauma Growth and client-based resiliency has a dramatic impact on recidivism rates and provident living within local communities. Presenters are experts with over 15 years of experience treating PTSD among criminal and military populations.
